

The Cross Keys for a special family day out - a Traditional country pub

Hayley and Graham were local residents in this area before moving to Kent. However, they have recently returned and are making a great success of revitalising the Cross Keys.

Since it was re-opened, it's been completely redecorated but still maintains that traditional country pub feel. Complete with bar, lounge and restaurant with open fires, offering a range of real ales, lagers and fine wines together with an enviable reputation for that special family day out – and you can even take your dog!

Improved menu

Food and customer feedback is now of paramount importance with an improved menu that is the talk of the area. All ingredients are sourced locally where possible and all food is prepared and cooked fresh to order with specialist dietary requirements catered for.

Hayley added, "Customers who have tried us, now come back for more." In better weather you can take advantage of their one acre garden with safe play area and free parking.

Buffets, parties and large groups are also catered for as well as complete wedding packages which includes Horse-drawn Carriage, Marquee and catering.
