

**MUST-HAVE
ACCESSORY**

Ivar London: super-stylish storage solutions for your favourite wrist candy

GOOD DESIGN comes in all forms, whether it's the clean functionality of an Eames chair or the lavish detailing on a jewellery watch. It's something cool homeware brand Ivar London have long realised, and their commitment to impeccable design is reflected in the beautiful homes they create, with their design service and products for men hitting the nail right on the head. Their race track collection of watch boxes pays tribute to an iconic symbol of car racing design - the race tracks themselves. The smooth outlines and sharp curves are reflected in the Monza, Monaco, Silverstone and Abu Dhabi watch boxes, which trace the silhouettes of famous tracks in vividly-coloured lacquer veneers. Luxury details, including under-box LED lighting, the tray-style soft interior and high quality hinges, mean these accessory boxes aren't just storage, but desirable objet d'art in their own right.
